

# **ANSWERS TO MOST FREQUENTLY ASKED QUESTIONS**

**Can you change the key?** Yes, as much as up 12 half steps or, down 12 half steps. Please write on top of slip if you wish for key change. I can also change the Tempo. If the lyrics are out of sync to the music, I can correct that too!

**What is your policy on Duets?** A Duet must go under one of the two singer's turns. Please circle the person whose turn the duet goes under.

**How do you run your rotation?** We call the singers up in order that the request slips are received. Note: We have some regulars that have been coming to our shows for years. Some of them do not hand in actual request slips. As the host sees them, we write his or her name on a request slip and put them in line in order of who was there first. Once they have sung, they go back in line again just like everyone else.

If we have many singers, we go an hour or up to an hour and a half before starting the rotation over again. New singers are inserted early into the new rotation in order that they were received. The earlier you arrive, the more chances you have at singing.
